WETS WANT PLANK IN DEMOCRATIC PLATFORM

OR ELSE A PLACE ON DEMOCRATIC NATIONAL TICKET

GROUP OF PROSPECTIVE WET
VICE-PRESIDENTIAL CANDI-
DATES GROOMED

GOV. SILZER OF NEW JERSEY
AND SEN. COPELAND OF NEW
YORK MENTIONED

Washington, May 4.—Wet
forces will demand either a place
on the democratic national ticket
in 1924 or a plank in the demo-
cratic national platform.

They want both, but they will be
content with either, though they
would vastly prefer the platform to
presidential candidates are being
wet than the ticket.

A number of prospective wet vice-
groomed by the Mercy-Brennan-Tag-
gert group.

Governor Silzer of New Jersey and
Senator Royal Copeland of New York
are the most prominent of those so
far mentioned. Both have been talk-
ed of as "presidential possibilities"
but neither is seriously considered
in that light.

Although both parties are desper-
ately fighting booze as an issue, the
more astute politicians here declare
it is and will remain one of the par-
amount democratic questions of 1924.

It is the question most talked
about today by the American people.
It has both domestic and interna-
tional ramifications. It will be the
subject of a bitter fight in the next
congress. It is in politics to stay and
for years to come, party chiefs sadly
admit. They wish it was otherwise.

DRAFT COMPROMISE MEASURE IN FLORIDA

(By United Press)
Tallahassee, Fla., May 4.—A com-
mittee of state senators met today
to draft a compromise measure abol-
ishing corporal punishment in Flori-
da convict camps.

The legislators thus far have been
unable to agree whether to do away
with the lash entirely or permit mod-
ified corporal punishment in the
prison camps.

Demand for summary abolishment
of the system of punishing the state
convicts by flogging them grew out
of the legislative investigation into
the death of Martin Tabert, Munich,
North Dakota boy, in a lumber camp
following a severe beating.

Hearing on the recommendation of
Governor Hardee that Judge B. F.
Willis of Leon county be removed
from office on the strength of charges
by witnesses in the Tabert investi-
gation that he sentenced prisoners
to lumber camps while intoxicated
was begun last night.

Judge Willis, appearing in his own
behalf told of the three months sen-
tence to be imposed on Tabert for
stealing a ride on a freight train.
This was the average sentence im-
posed on men convicted of beating
their way on a railroad, the judge
said. The sentence was in effect be-
fore he took office, Judge Willis ad-
ded.

Several witnesses testified the
judge's character and qualifications
were of the best. Others said that
they had never seen him drunk as
witnesses in the Tabert case testi-
fied.

FRANCE OBJECTS TO DRY RULING

(By United Press)
Paris, May 4.—Premier Poincare
of France is of the opinion that the
ruling prohibiting foreign ships
from carrying liquor in American
waters transgresses international
usage and that it is impossible for
France to comply, it was semi-offi-
cially stated today.

The French premier has charged
Ambassador Jusserand at Washing-
ton to make clear to the United
States government the consequences
to communications between France
and America.

Record Flight Almost Collapsed at the Start

* 5 BANDITS ROB TWO BANKS AT SAME TIME; LOOT TOTALS \$38,000 *

(By United Press)
Buckner, Mo., May 4.—Five band-
its held up two banks here today
and escaped with \$8,000 in cash
and \$30,000 in liberty bonds.

The robberies were staged sim-
ultaneously, the five bandits driv-
ing into the business district in a
large automobile and parking in
front of the two banks. Two high-
waymen entered the Buckner bank
and held up the officers and two
customers and at the same time
two other bandits walked into the
bank on the opposite side of the
street and held up the officers, es-
caping with \$4,000 in cash. After
the robberies the two groups re-
entered the automobile and dashed
away.

NELSON'S WILL MADE PUBLIC

GIVES HOMESTEAD IN ALEXAN- DRIA FOR OLD PEOPLES HOME

(By United Press)
St. Paul, May 4.—The late Senator
Knute Nelson "grand old man" of
the senate, made provision in his will
giving his homestead at Alexandria
for an old peoples home.

This was revealed today by Govern-
or J. A. O. Preus, administrator of
the estate.

He filed the will in Douglas county
probate court. Governor Preus
said he did not know the exact
amount of the property left, because
Senator Nelson left many unlisted
securities in a safety deposit vault in
Washington. Relatives are be-
queathed \$22,000.

A daughter, Ida, now living in
Alexandria received a large interest
in the homestead, which will be turned
over to the Norwegian Lutheran
church of America on her death, to
be used as an old peoples home.

This daughter also receives the
home in Washington, of which she
may make disposition as she sees fit.

PREUS MAY NAME NELSON SUCCESSOR

NO LEGAL OBSTACLE TO PROCE- DURE, SAYS ATTORNEY GENERAL

(By United Press)
St. Paul, May 4.—There is no legal
obstacle to Governor Preus appoint-
ing a successor to the late Senator
Knute Nelson, Attorney General C.
L. Hilton held today.

His unofficial ruling was in com-
ment on a contention by Fred A.
Pike, chairman of the farmer-labor
party's state central committee that
the state law giving the governor
such power was illegal.

Mr. Pike quoted from the consti-
tution, contending that the govern-
or must call a special election.

With the way cleared for an ap-
pointment, there was talk today that
the governor might act soon to fill
the vacancy in the senate.

Rumors persisted that he would
resign as governor and take Senator
Nelson's seat by appointment from
Lieutenant Governor Collins, who
would become governor.

The most likely procedure, friends
of the governor held, would be for
him to appoint some staunch repub-
lican to the post and possibly become
a candidate for election to the senate
next year.

State Senators A. J. Rockne and
F. E. Putnam were most talked of.

Progressive leaders have urged ap-
pointment of Judge Oscar Hallum
to the post. They said Governor
Preus could line up progressive re-
publican support for himself by such
a move.

FRESHMAN LEADER AT NORTHWESTERN SOUGHT IN PROBE

ALL NIGHT INQUIRY CONDUCTED INTO DEATH OF LEIGHTON MOUNT

FOOTBALL STARS TAKEN FROM BEDS AT VARIOUS HOURS AND INTERROGATED

(By United Press)
Chicago, May 4.—J. Allen
Mills, freshman leader at the North-
western University, was sought by
questioning today where they all
night inquiry into the death of
Leighton Mount as the result
of an alleged hazing.

William McElwain and Thomas
Wolfe, football stars were among a
score of students called from their
homes and beds at various hours of
the night. They told Edgar A. Jones,
assistant states attorney, that Mills
returned from the sophomore-fresh-
man class hazing of 1921 with his
clothing wet, but denied that he had
been "ducked" in the lake by the
sophomores.

Mills left school the following
year, and is now supposed to be
somewhere in the west.

John Scott, son of President Walter
Dill Scott of the university and
Fred Scott, a nephew, were among
those examined early today. Both
denied participating to any extent
in the class fight. McElwain and
Wolfe declared that when Mills came
to his frat house the morning after
the hazing, he changed his wet
clothes and set out again. Later,
the witness said, he kept running up
and down the lake shore expressing
great anxiety about young Mount.

Mills afterwards several times
tried to organize a searching party
for the youth, but without success.
Mount's skeleton was discovered
Monday night in a Lake Michigan
pier where the body evidently was
placed in 1921.

TWO DISTINCT EARTH SHOCKS

RECORDED BY SEISMOGRAPH AT ST. IGNATIUS COLLEGE TODAY

(By United Press)
Cleveland, May 4.—Two distinct
earth shocks indicating disturbances
between 4,000 and 5,000 miles from
Cleveland were recorded by the seis-
mograph at St. Ignatius college here
today.

The first shock came at 11:42, the
second at 11:47 a. m. Rev. F. Loden-
bach in charge of the observatory
reported.

MOONSHINER KEEPS SKUNKS IN HOME TO KILL ODOR OF MASH

Washington Court House, Ohio,
May 4.—Sam Davis was fined \$25 and
costs for keeping skunks and \$350
for violating the prohibition law
yesterday. Police who raided his
home, charged he kept the skunks to
kill the odor of moonshine mash.

EXPLOSION ROCKS COUNTRY FOR MILES

(By United Press)
New Lexington, Ohio, May 4.—Ex-
plosion of 400 quarts of nitro-gly-
cerine in the warehouse of the Ag-
new Torpedo Company at Bremen
here rocked the country for a
radius of twenty miles at noon to-
day.

Warehouse workers were at lunch.
The warehouse was blown to bits. A
check is being made to ascertain if
anyone was killed. Practically every
window in Bremen was shattered by
the blast.

GOMPERS INDORSES WORLD COURT PLAN

Washington, May 4.—Unqualified
indorsement was given President
Harding's world court plan by Sam-
uel Gompers, president of the Amer-
ican Federation of Labor, who asked
for "nonpartisan unity" in support
of the proposal.

"With the proposal for the United
States to enter the international
court of justice I am in full accord,"
Mr. Gompers said. "That is an ini-
tial step that inevitably will lead
to participation in all efforts to main-
tain peace between nations."

"Nonpartisan unity in support of
this proposal may again bring a mes-
sage of hope to nations in dire need.
Let us neglect no opportunity for
progress."

* ALL SUGAR PRICES DROP FOLLOWING THE HOUSEWIVES BOYCOTT *

(By United Press)
New York, May 4.—All sugar
prices dropped suddenly today fol-
lowing development of the nation-
wide boycott organized by house-
wives.

Raw sugar was 15 cents to 20
cents lower on the hundred
pounds. The price of refined sug-
ar was lowered a quarter of a
cent to 9.30 cents per pound by
the National Sugar Refining com-
pany.

22,000 MINNESOTA MINERS GET RAISE

OLIVER COMPANY AND INDE- PENDENTS PREPARE FOR RECORD YEAR

Duluth, Minn., May 4.—The wave
of returning prosperity, evidences of
which have been growing stronger
daily in the Lake Superior iron min-
ing district, reached a pronounced
stage with the announcement by op-
erators that wages of the approxi-
mately 22,000 miners would be in-
creased 10 per cent.

Pentecost Mitchell, vicepresident of
the Oliver Iron Mining company, an-
nounced the wage increase.

The announcement of the Oliver
company wasn't unexpected for it had
been expected the miners' wages
would be adjusted since the employ-
ees of the Minnesota Steel company
were awarded a 10 per cent wage in-
crease several weeks ago.

Formal announcement of the raise
by the leading independents came
from W. P. Chinn, general manager
of the Pickands Mather company,
with 3,500 miners; E. E. Hunner,
general manager of the Hanna Ore
Mining company, with 2,500 min-
ers; Francis J. Webb, general man-
ager of the Republic Iron & Steel
company, with 700 employees, and E.
J. Maney, general manager of the
Shenango Furnace company, with
500 employees.

The new wage scale for common
labor, which comprises most of the
employees in the mines of Minnesota,
Michigan and Wisconsin, will be
\$4.20 a day. The previous scale was
\$3.75, established last fall when
the first raise of 10 per cent since
the post war depression was an-
nounced. The new wage scale, com-
pares favorably with the prewar
scale and is slightly under the mark
set during the war.

The 11,000 employees of the Oliver
Iron Mining company, United States
Steel corporation subsidiary and the
largest producer in the district, will
receive the additional pay retroac-
tive to May 1. The same action af-
fects the workers for the independent
concerns.

Mining experts interpreted the ac-
tion of the mining companies to mean
that the operators not only expect to
retain their present near capacity
forces, but expect to increase their
working staff. This follows reports
from mining headquarters that 1923
promises to be a record year for min-
ing and shipping iron ore for con-
sumption at the lower lake furnac-
es.

WIRELESS FINDS 6 YEAR OLD BOY KIDNAPED MONDAY

DESCRIPTIONS OF VERNER ALEX- ANDERSON BROADCASTED INTO THE AIR

BOATMAN AT THERESA RECOG- NIZED BOY—KIDNAPERS HAVE FLED TO CANADA

(By United Press)
Schenectady, N. Y., May 4.—
The wireless, which his father,
chief engineer of the Radio Cor-
poration of America helped per-
fect, found six year old Verner
Alexanderson, kidnaped last
Monday afternoon.

Descriptions of the child, stories
of his abduction, appeals by his par-
ents and offers of reward were sent
broadcast into the air by the family
which bore up bravely in the knowl-
edge that the invisible waves were
reaching wherever the kidnapers
of their son might be. For 48 hours
radio fans from coast to coast heard
the pleas and lent their sympathy
and whatever aid possible in the
search for Verner who had been lured
from home by a promise of rabbits.

Thursday Bert Jarvis, a boatman
of Theresa recognized men with a
small boy as the kidnapers and the
Alexanderson boy of whom he had
heard through the wireless and news-
papers each night and day. A report
to the police and within a short time
a happy childish treble spoke over
the telephone to a greatly relieved
mama here:

"I'm all right mama, I'm all right
and you ought to see my doggie".
The kidnapers, two men, who have
fled to Canada, promised him two
bunnies he said, but gave him in-
stead a wonderful dog.

THOUGHT VICTIM OF LABOR WAR

ERIC SEALANDER FOUND MUR- DERED IN CHICAGO STREET CAR

(By United Press)
Chicago, May 4.—Eric Sealander,
50, of Kansas City, believed by po-
lice to have been the victim of a la-
bor war, was found murdered in a
North side street car today.

Sealander came here from Kansas
City about two months ago and was
working under the Landis award.
He had evidently died from a beat-
ing. Bones in his shoulders and face
were broken.

A small girl found the body and
notified police.

HARDING TO SPEAK IN 40 CITIES ON HIS TOUR OF WEST

Washington, May 4.—President
Harding has agreed tentatively to
speak in 40 cities on his western trip
this proposal may again bring a mes-
sage today.

In at least 15 and probably 20
cities the president plans to deliver
formal addresses upon subjects of
first importance. At the other stops
en route to and from Alaska he ex-
pects to make rear platform speech-
es.

The itinerary now favored by Mr.
Harding includes important speech-
es at St. Louis, Kansas City, Des
Moines, Omaha, Cheyenne, Denver,
Salt Lake City, Los Angeles, San
Francisco, Portland, Seattle, Boise,
Helena, Bismarck, Minneapolis, Mil-
waukee Chicago, South Bend, De-
troit and Cleveland or Columbus.

The president hopes to make one
and possibly three rear platform
speeches before his first formal ad-
dress at St. Louis between June 15
and 20. There he is expected to
open his speaking tour with an ad-
dress dealing broadly with the prob-
lems of the west and his policies of
the future.

* GIRL CLAIMS RECORD MARATHON IN DISH WASHING; 31 HOURS *

(By United Press)
Punxsutawney, Pa., May 4.—The
marathon dish washing record of
the world was claimed by Miss
Susie Hetlock of the village of Co-
vode, near here. Susie, aged 22,
got a job in the kitchen of the
Pantall hotel, several months ago.
Some of her friends were discuss-
ing marathon dancing and the con-
versation eventually centered on
the subject of cleaning the family
plate. A wager was laid and Susie
started on her record making dish-
washing expedition. Using only
the old time methods—a dishcloth,
pan, hot water and soap—Miss
Hetlock continued her operations
for 31 hours without a stop. She
won the wager, and the hotel man-
ager gave her a two day vacation.

TO ATTEMPT WORLD FLIGHT

AMERICAN ARMY AIR SERVICE TO CIRCLE THE GLOBE SOON

(By United Press)
Washington, May 4.—The Ameri-
can army air service some time this
summer will attempt a flight around
the world, Brigadier General Wil-
liam Mitchell, assistant chief of the
air service announced today.

The non-stop flight just achieved
is a great accomplishment General
Mitchell said in telling of the future
plans of the army air service, but
this country's pioneers of the air will
not rest on the laurels they have thus
far established.

The next attempt at a record by
the air service, Mitchell declared in
an exclusive interview with the
United Press, will be a non-stop
flight across the continent from
"daylight to dark" or within the
span of daylight.

This flight which if successful
would cut almost half the time for
the trip achieved by Lieutenants
John A. MacReady and Oakley Kel-
ly probably will be tried in June.

REPUBLICANS TO MEET IN CHICAGO

1924 CONVENTION IS VIRTUALLY ASSURED FOR THE WINDY CITY

(By United Press)
Chicago, May 4.—The 1924 repub-
lican national convention is virtu-
ally assured to be held in Chicago,
Fred W. Upham, treasurer of the na-
tional committee said today.

Although the national commit-
tee does not meet to pick the conven-
tion city until next December, 29 of the
53 members are already reported to
have signed pledges to cast their
votes for Chicago.

"I have no doubt but what Chi-
ago will get the convention" Upham
said.

The meeting has been eagerly
sought by cities throughout the
country, especially on the Pacific
coast. Representatives of republi-
cans in California were recently in
conference with Upham urging that
San Francisco be chosen for the
meetings.

Upham said, however, that besides
the votes of the committeemen
which were understood to have been
pledged to him, several other fea-
tures still remained to be taken into
consideration.

"The wishes of President Harding
should be again be a candidate re-
garding the convention city will have
to be considered" Upham pointed out.

Huron, S. D., May 4.—Alvin W.
Owsley, national commander of the
American Legion, will speak in Hu-
ron June 27, according to an an-
nouncement received by the post
here.

VOLTAGE REGULATOR BALKED, REPAIRED BY AIRMEN ENROUTE

KELLY AND MACREADY WORK- ED IN 6 HOUR SHIFTS ACROSS THREE STATES

ARRIVED IN SAN DIEGO, LIMBS CRAMPED AFTER 26 HOUR, 50 MINUTE TRIP

San Diego, Calif., May 4.—
Roaring over sleeping cities and
vast stretches of desolate desert
land, lost in uncharted air
lanes high above a trackless wil-
derness, replacing a voltage regu-
lator to save the trip from fail-
ure at the start, straining their
goggled eyes for the beams of
the air lighthouses—these were
some of the experiences of Lieut-
enants Oakley Kelly and John A.
MacReady in their non-stop
coast to coast flight in which
they spanned the continent in a
day.

Their faces splashed with oil, their
limbs stiff with sitting in strained
position for 26 hours and fifty min-
utes during the trip from New York
to San Diego, the explorers of the
air told of their great adventure in
the short time they kept awake af-
ter arriving here.

Today they were still sleeping at
their rooms in the U. S. Grant hotel,
behind the placard "Do not distur-
b."

The distance from the New York
field from which they started to
Rockwell field San Diego, where they
landed, is between 2700 and 2750
miles.

The official time for the voyage
was 26 hours, 50 minutes, 48 2-5
seconds.

During the trip MacReady and
Kelly ate ready cooked food and
drank coffee from thermos bottles,
but they had to take only two meals
in the air—dinner Wednesday night
and breakfast Thursday morning.

They got to San Diego in time for
lunch.

Soaring away from the Atlantic
coast shortly after noon on one day
to swoop down at their landing place
at 12:20 the next day, having trav-
ersed in that time the long and
weary distance across which as re-
cently as the late sixties the immi-
grants toiled for months in ox
drawn covered wagons.

Starting from the New York field
the airmen found that with the long
stretch before them they were unable
to get their heavy plane much more
than 400 feet off the ground. The
motor was not functioning properly.
In this condition they passed over
Jones Island, skirted Manhattan with
its bristling sky scrapers and passed
westward above New Jersey.

"We could not ascertain the rea-
son why we were unable to get the
full horse power out of our engine at
the take off" said Kelly.

"In New Jersey the voltage regu-
lator cut out on us, but we repaired
it in flight."

In this simple language he told
how the trip seemed doomed in the
start, how it was just touch and go
whether they would make San Die-
go or be forced to return and land
ignominiously somewhere in New
Jersey.

"If we would not have been able
to repair it, we would have had to
return" continued Kelly.

Working in six hour shifts, they
continued across Pennsylvania, Illi-
nois and Missouri.

VOTE DOWN DRY LAW REPEAL

(By United Press)
Albany, New York, May 4.—The
New York state assembly today re-
jected a repeal for the state prohibi-
tion enforcement act.
The vote was 78 to 70.

a move.

FRESHMAN LEADER AT NORTHWESTERN SOUGHT IN PROBE

ALL NIGHT INQUIRY CONDUCTED INTO DEATH OF LEIGHTON MOUNT

FOOTBALL STARS TAKEN FROM
BEDS AT VARIOUS HOURS AND
INTERROGATED

Chicago, May 4.—J. Allen
Mills, freshman leader at the
Northwestern University, was
sought by police today for
questioning today where they
all night inquiry into the death
of Leighton Mount as the result
of an alleged hazing.

William McElwain and Thomas
Wolfe, football stars were among
a score of students called from their
homes and beds at various hours of
the night. They told Edgar A. Jones,
assistant states attorney, that Mills
returned from the sophomore-fresh-
man class hazing of 1921 with his
clothing wet, but denied that he had
been "ducked" in the lake by the
sophomores.

Mills left school the following
year, and is now supposed to be
somewhere in the west.

John Scott, son of President Wal-
ter Dill Scott of the university and
Fred Scott, a nephew, were among
those examined early today. Both
denied participating to any extent
in the class fight. McElwain and
Wolfe declared that when Mills came
to his frat house the morning after
the hazing, he changed his wet

Mills afterwards several times
tried to organize a searching party
for the youth, but without success.
Mount's skeleton was discovered
Monday night in a Lake Michigan
pier where the body evidently was
placed in 1921.

TWO DISTINCT EARTH SHOCKS

RECORDED BY SEISMOGRAPH AT ST. IGNATIUS COLLEGE TODAY

(By United Press)
Cleveland, May 4.—Two distinct
earth shocks indicating disturbances
between 4,000 and 5,000 miles from
Cleveland were recorded by the sei-
smograph at St. Ignatius college here
today.

The first shock came at 11:42, the
second at 11:47 a. m. Rev. F. Loden-
bach in charge of the observatory
reported.

MOONSHINER KEEPS SKUNKS IN HOME TO KILL ODOR OF MASH

Washington Court House, Ohio,
May 4.—Sam Davis was fined \$25 and
costs for keeping skunks and \$350
for violating the prohibition law
yesterday. Police who raided his
home, charged he kept the skunks to
kill the odor of moonshine mash.

EXPLOSION ROCKS COUNTRY FOR MILES

(By United Press)
New Lexington, Ohio, May 4.—Ex-
plosion of 400 quarts of nitro-gly-
cerine in the warehouse of the Ag-
new Torpedo Company at Bremen
near here rocked the country for a
radius of twenty miles at noon to-
day.
Warehouse workers were at lunch.
The warehouse was blown to bits. A
check is being made to ascertain if
anyone was killed. Practically every
window in Bremen was shattered by
the blast.

GOMPERS INDORSES WORLD COURT PLAN

Washington, May 4.—Unqualified
indorsement was given President
Harding's world court stand by Sam-
uel Gompers, president of the Amer-
ican Federation of Labor, who asked
for "nonpartisan unity" in support
of the proposal.

"With the proposal for the United
States to enter the international
court of justice I am in full accord,"
Mr. Gompers said. "That is an im-
portant step that inevitably will lead
to participation in all efforts to main-
tain peace between nations."

"Nonpartisan unity in support of
this proposal may again bring a mes-
sage of hope to nations in dire need.
Let us neglect no opportunity for
progress."

* ALL SUGAR PRICES DROP FOLLOWING THE HOUSEWIVES BOYCOTT *

(By United Press)
New York, May 4.—All sugar
prices dropped suddenly today fol-
lowing development of the nation-
wide boycott organized by house-
wives.

Raw sugar was 15 cents to 20
cents lower on the hundred
pounds. The price of refined sug-
ar was lowered a quarter of a
cent to 9.30 cents per pound by
the National Sugar Refining com-
pany.

22,000 MINNESOTA MINERS GET RAISE

OLIVER COMPANY AND INDE- PENDENTS PREPARE FOR RECORD YEAR

Duluth, Minn., May 4.—The wave
of returning prosperity, evidences of
which have been growing stronger
daily in the Lake Superior iron min-
ing district, reached a pronounced
stage with the announcement by op-
erators that wages of the approxi-
mately 22,000 miners would be in-
creased 10 per cent.

Pentecost Mitchell, vicepresident of
the Oliver Iron Mining company, an-
nounced the wage increase.

The announcement of the Oliver
company wasn't unexpected for it had
been expected the miners' wages
would be adjusted since the employ-
ees of the Minnesota Steel company
were awarded a 10 per cent wage in-
crease several weeks ago.

Formal announcement of the raise
by the leading independents came
from W. P. Chinn, general manager
of the Pickands Mather company,
with 3,500 miners; E. E. Hunner,
general manager of the Hanna Ore
Mining company, with 2,500 min-
ers; Francis J. Webb, general man-
ager of the Republic Iron & Steel
company, with 700 employees, and
E. J. Maney, general manager of the
Shenango Furnace company, with
500 employees.

The new wage scale for common
labor, which comprises most of the
employees in the mines of Minnesota,
Michigan and Wisconsin, will be
\$4.20 a day. The previous scale was
\$3.75, established last fall when
the first raise of 10 per cent since
the post war depression was an-
nounced. The new wage scale, com-
pares favorably with the prewar
scale and is slightly under the mark
set during the war.

The 11,000 employees of the Oliver
Iron Mining company, United States
Steel corporation subsidiary and the
largest producer in the district, will
receive the additional pay retroac-
tive to May 1. The same action af-
fects the workers for the independent
concerns.

Mining experts interpreted the ac-
tion of the mining companies to mean
that the operators not only expect to
retain their present near capacity
forces, but expect to increase their
working staff. This follows reports
from mining headquarters that 1923
promises to be a record year for min-
ing and shipping iron ore for con-
sumption at the lower lake furnac-
es.

WIRELESS FINDS 6 YEAR OLD BOY KIDNAPED MONDAY

DESCRIPTIONS OF VERNER ALEX- ANDERSON BROADCASTED INTO THE AIR

BOATMAN AT THERESA RECOG-
NIZED BOY—KIDNAPERS HAVE
FLED TO CANADA

(By United Press)
Schenectady, N. Y., May 4.—
The wireless, which his father,
chief engineer of the Radio Cor-
poration of America helped per-
fect, found six year old Verner
Alexanderson, kidnaped last
Monday afternoon.

Descriptions of the child, stories
of his abduction, appeals by his par-
ents and offers of reward were sent
broadcast into the air by the family
which bore up bravely in the know-
ledge that the invisible waves were
reaching wherever the kidnapers of
their son might be. For 48 hours
radio fans from coast to coast heard
the pleas and lent their sympathy
and whatever aid possible in the
search for Verner who had been lured
from home by a promise of rabbits.

Thursday Bert Jarvis, a boatman
of Theresa recognized men with a
small boy as the kidnapers and the
Alexanderson boy of whom he had
heard through the wireless and news-
papers each night and day. A report
to the police and within a short time
a happy childish treble spoke over
the telephone to a greatly relieved
mother here.

"I'm all right mama, I'm all right
and you ought to see my doggie".
The kidnapers, two men, who have
fled to Canada, promised him two
bunnies he said, but gave him in-
stead a wonderful dog.

THOUGHT VICTIM OF LABOR WAR

ERIC SEALANDER FOUND MUR- DERED IN CHICAGO STREET CAR

(By United Press)
Chicago, May 4.—Eric Sealander,
50, of Kansas City, believed by police
to have been the victim of a labor
war, was found murdered in a
North side street car today.

Sealander came here from Kansas
City about two months ago and was
working under the Landis award.
He had evidently died from a beat-
ing. Bones in his shoulders and face
were broken.

A small girl found the body and
notified police.

HARDING TO SPEAK IN 40 CITIES ON HIS TOUR OF WEST

Washington, May 4.—President
Harding has agreed tentatively to
speak in 40 cities on his western trip
this proposal may again bring a mes-
sage today.

In at least 15 and probably 20
cities the president plans to deliver
formal addresses upon subjects of
first importance. At the other stops
en route to and from Alaska he ex-
pects to make rear platform speech-
es.

The itinerary now favored by Mr.
Harding includes important speech-
es at St. Louis, Kansas City, Des
Moines, Omaha, Cheyenne, Denver,
Salt Lake City, Los Angeles, San
Francisco, Portland, Seattle, Boise,
Helena, Bismarck, Minneapolis, Mil-
waukee, Chicago, South Bend, De-
troit and Cleveland or Columbus.

The president hopes to make one
and possibly three rear platform
speeches before his first formal ad-
dress at St. Louis between June 15
and 20. There he is expected to
open his speaking tour with an ad-
dress dealing broadly with the prob-
lems of the west and his policies of
the future.

* GIRL CLAIMS RECORD MARATHON IN DISH WASHING; 31 HOURS *

(By United Press)
Punxsutawney, Pa., May 4.—The
marathon dish washing record of
the world was claimed by Miss
Susie Hetlock of the village of Co-
vode, near here. Susie, aged 22,
got a job in the kitchen of the
Pantall hotel, several months ago.
Some of her friends were discuss-
ing marathon dancing and the con-
versation eventually centered on
the subject of cleaning the family
plate. A wager was laid and Susie
started on her record making dish-
washing expedition. Using only
the old time methods—a dishcloth,
pan, hot water and soap—Miss
Hetlock continued her operations
for 31 hours without a stop. She
won the wager, and the hotel man-
ager gave her a two day vacation.

VOLTAGE REGULATOR BALKED, REPAIRED BY AIRMEN ENROUTE

KELLY AND MACREADY WORK- ED IN 6 HOUR SHIFTS ACROSS THREE STATES

ARRIVED IN SAN DIEGO, LIMBS
CRAMPED AFTER 26 HOUR,
50 MINUTE TRIP

(By United Press)
San Diego, Calif., May 4.—
Roaring over sleeping cities and
vast stretches of desolate desert
land, lost in uncharted air
lanes high above a trackless wil-
derness, replacing a voltage regu-
lator to save the trip from fail-
ure at the start, straining their
goggled eyes for the beams of
the air lighthouses—these were
some of the experiences of Lieut-
enants Oakley Kelly and John A.
MacReady in their non-stop
coast to coast flight in which
they spanned the continent in a
day.

Their faces splashed with oil, their
limbs stiff with sitting in strained
position for 26 hours and fifty min-
utes during the trip from New York
to San Diego, the explorers of the
air told of their great adventure in
the short time they kept awake af-
ter arriving here.

Today they were still sleeping at
their rooms in the U. S. Grant hotel,
behind the placard "Do not distur-
b."

The distance from the New York
field from which they started to
Rockwell field San Diego, where they
landed, is between 2700 and 2750
miles.

The official time for the voyage
was 26 hours, 50 minutes, 48 2-5
seconds.

During the trip MacReady and
Kelly ate ready cooked food and
drank coffee from thermos bottles,
but they had to take only two meals
in the air—dinner Wednesday night
and breakfast Thursday morning.

They got to San Diego in time for
lunch.

Soaring away from the Atlantic
coast shortly after noon on one day
to swoop down at their landing place
at 12:20 the next day, having trav-
ersed in that time the long and
weary distance across which as re-
cently as the late sixties the immi-
grants toiled for months in ox
drawn covered wagons.

Starting from the New York field
the airmen found that with the long
stretch before them they were unable
to get their heavy plane much more
than 400 feet off the ground. The
motor was not functioning properly.
In this condition they passed over
Joney Island, skirted Manhattan with
its bristling sky scrapers and passed
westward above New Jersey.

"We could not ascertain the rea-
son why we were unable to get the
full horse power out of our engine at
the take off" said Kelly.

"In New Jersey the voltage regu-
lator cut out on us, but we repaired
it in flight."

In this simple language he told
how the trip seemed doomed in the
start, how it was just touch and go
whether they would make San Diego
or be forced to return and land
ignominiously somewhere in New
Jersey.

"If we would not have been able
to repair it, we would have had to
return" continued Kelly.

Working in six hour shifts, they
continued across Pennsylvania, Illi-
nois and Missouri.

VOTE DOWN DRY LAW REPEAL

(By United Press)
Albany, New York, May 4.—The
New York state assembly today re-
jected a repeal for the state prohibi-
tion enforcement act.
The vote was 78 to 70.

USED PINE BARK AS FOOD

Indians in Southwestern States Found
 Sustenance in Covering Which
 They Removed From Trees.

A common query of tourists on their
 first trip into the forests of the south-
 western states is, "Who peeled all
 those big pine trees, and for what rea-
 son?" The pines commonly found
 around the edges of open parks and
 mountain valleys have had half to
 three-fourths of their bark removed
 up to seven or eight feet from the
 ground. This is the explanation given
 in American Forestry by Walter J.
 Perry:

On the Carson National forest in
 northern New Mexico there was, with-
 in the memory of living men, quite a
 large Indian population, consisting of
 Navajos and occasional roving bands
 of Utes, Apaches and Comanches.
 These were gradually dispossessed
 and pushed back by the Mexican set-
 tlers coming in from the south up
 the valley of the Rio Grande, so that
 the last remnants of the original in-
 habitants disappeared to the arid west
 about forty-five or fifty years ago. For-
 merly these people, or some of them,
 cultivated patches along the lower val-
 leys of the mountain streams. In the
 summer they spread out into all the
 little mountain valleys, and signs of
 these camps are very abundant. One
 of these signs is the peeled trees.

From the best information obtain-
 able from old settlers, Indians and
 others, it appears that the Indians re-
 moved the dry outer bark of the

trees by means of stone hatchets, after
 which the inner bark or cambium
 could easily be stripped off. This was
 dried and roughly ground by means
 of the metate and used as a substi-
 tute breadstuff to eke out the scanty
 supply of corn raised in the valleys,
 which, to judge by cornucopis found in
 the once-inhabited caves, was of very
 poor size. The peeling of the bark
 was done in the early summer when
 the sap was flowing and the bark was
 easily removed. At this season the
 cambium is tender and palatable, be-
 ing of sweetish taste and slightly
 aromatic, and is probably nutritious.

There are some thirty or forty
 peeled trees around one old summer
 campground. One of these trees was
 a thrifty 22-inch pine, about one hun-
 dred and fifty years old when it was
 peeled three-fourths way round in 1852
 —seventy years ago.

Close Quebec Forests.
 A decree has been issued by the
 Quebec provincial government closing
 the forests of the province from April
 1 to November 15. Those wishing
 to go into the forests during that
 period will have to secure a permit.
 The closing of the forests is a mea-
 sure of protection taken by the govern-
 ment against forest fires.

Would Be Wasted Effort.
 Emma, playing on the walk, fell, but
 got up and walked to the house.
 I had been watching from the win-
 dow and said, "Guess you didn't hurt
 yourself. I didn't hear you cry."
 "Why, mamma, there was no one to
 cry to," she said.—Exchange.

USED PINE BARK AS FOOD

Indians in Southwestern States Found Sustenance in Covering Which They Removed From Trees.

A common query of tourists on their first trip into the forests of the southwestern states is, "Who peeled all those big pine trees, and for what reason?" The pines commonly found around the edges of open parks and mountain valleys have had half to three-fourths of their bark removed up to seven or eight feet from the ground. This is the explanation given in American Forestry by Walter J. Perry.

On the Carson National forest in northern New Mexico there was, within the memory of living men, quite a large Indian population, consisting of Navajos and occasional roving bands of Utes, Apaches and Comanches. These were gradually dispossessed and pushed back by the Mexican settlers coming in from the south up the valley of the Rio Grande, so that the last remnants of the original inhabitants disappeared to the arid west about forty-five or fifty years ago. Formerly these people, or some of them, cultivated patches along the lower valleys of the mountain streams. In the summer they spread out into all the little mountain valleys, and signs of these camps are very abundant. One of these signs is the peeled trees. From the best information obtainable from old settlers, Indians and others, it appears that the Indians removed the dry outer bark of the

trees by means of stone hatchets, after which the inner bark or cambium could easily be stripped off. This was dried and roughly ground by means of the metate and used as a substitute breadstuff to eke out the scanty supply of corn raised in the valleys, which, to judge by corn cobs found in the once inhabited caves, was of very poor size. The peeling of the bark was done in the early summer when the sap was flowing and the bark was easily removed. At this season the cambium is tender and palatable, being of sweetish taste and slightly aromatic, and is probably nutritious. There are some thirty or forty peeled trees around one old summer campground. One of these trees was a thrifty 22-inch pine, about one hundred and fifty years old when it was peeled three-fourths way round in 1852—seventy years ago.

Close Quebec Forests.
 A decree has been issued by the Quebec provincial government closing the forests of the province from April 1 to November 15. Those wishing to go into the forests during that period will have to secure a permit. The closing of the forests is a measure of protection taken by the government against forest fires.

Would Be Wasted Effort.
 Emma, playing on the walk, fell, but got up and walked to the house. I had been watching from the window and said, "Guess you didn't hurt yourself, I didn't hear you cry." "Why, mamma, there was no one to cry to," she said.—Exchange.

AIRBRAKE SCHOOL AT THE SHOPS

School on Wheels Arrives to Instruct in Air Brake and Locomotive Mechanism

H. M. LAMB IS INSTRUCTOR

J. P. McGowan is Supervisor in Charge for International Correspondence Schools

Most of us are familiar with schools, and have at one time or another attended them, but not many have had the advantages of having the school house come to them.

This is the manner in which J. P. McGowan characterizes the large Pullman car over which he is supervisor for the International Correspondence schools.

This railway car arrived in Brainerd from St. Paul Thursday night, and will be located at the N. P. shops for the next two weeks, where instruction in air-brakes and locomotive mechanism will be given.

The instruction equipment in this car is unique as well as practical. Both the Westinghouse and New York models of air brakes are represented. The braking system on a 46-car train is installed in this car in every detail, from the engineer's control to the rear of the train.

Four types of locomotives are also illustrated with working models, telling their story in a most graphic manner.

H. M. Lamb is the instructor with the car, and will hold classes for the shopmen and trainmen at 10 a. m., 2 p. m. and 7:30 p. m. daily. The car is open to visitors from 9 a. m. until 10 p. m. every day.

Twelve such cars are in use throughout the United States, says Mr. McGowan, and in every instance the school is receiving the hearty endorsement of the railway officials, and the support of the shop and train men.

ST. FRANCIS SCHOOL

Honor Roll for April Made Public by the Parochial School

The St. Francis School honor roll for the month of April is as follows:

Eighth grade—Marian Liners, Joseph Ryan, Irene Koepl, Dorothy Deering, Kathryn Cleary, Martin Larkin, Mary Siegel and Ella Sears. Highest average, Marian Liners.

Sixth grade—Hazel Coenen, Hugh McCaffrey, Ruth Schwartz, William McClenahan, Allen Gray Johnson, Helen Phillips and Marie Gaboury.

Fifth grade—Gordon Hoerner, Alice Lind, and Margaret Meyers.

Fourth grade—Edward Burke.

Third grade—Ethel Lyonais.

Second grade—Mary Hoerner and Jeanette McNaughton.

First grade—Jane Clarke, Virginia Denis, Elizabeth Phillips, Irene Peterson, James Quinlan, Mildred Hellen, Kathleen Lutz and Agnes Lang.

Notice to Public

Office of Water and Light Board in City Hall will be open during noon hour, after this date, for convenience of public.

May 4-23. Water and Light Board

Sagli-Larson

A very pretty wedding was solemnized on Wednesday evening at the Norwegian-Danish Lutheran church, when Miss Tena Larson became the bride of Andrew Sagli. Rev. O. L. Bolstad officiated, using the ring service.

Miss Rose Larson, cousin of the bride, acted as bridesmaid, and the bride's brother, Barney Larson, as best man.

Mrs. Sagli is a daughter of Mr. and Mrs. Nels Larson, 901 Rosewood street, and is a very popular young lady in the city.

The groom is employed at the mines in Ironton, in which town the newlyweds will make their home.

The Dispatch joins their many friends in offering congratulations.

Luther League

The Luther League of the Clara Lutheran church will give the following missionary program this evening in the church parlors:

Recitation.....Carl Peterson
Piano solo.....Ida Peterson
Reading.....Agnes Sundine
Lecture.....Etta Johnson
Song.....Rev. A. Samuelson
Male Chorus

Members and friends of the League are cordially invited and urged to attend.

Thought for the Day.

Many of the so-called self-made men employed the wrong architect!

In the District Court of the United States

For the District of Minnesota, Fifth Division.

In the matter of Norman Edward Hanson, bankrupt, in bankruptcy.

To the Honorable Page Morris, judge of the district court of the United States for the district of Minnesota.

Norman Edward Hanson of Pequot in the county of Crow Wing and State of Minnesota in said district, respectfully represents:

That on the 22nd day of December, 1922, last past, he was duly adjudged bankrupt under the Acts of Congress relating to bankruptcy; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said Acts and of the orders of the court touching his bankruptcy.

Wherefore He Prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said Bankruptcy Acts, except such debts as are excepted by law from such discharge.

Dated this 24th day of April A. D. 1923.

NORMAN EDWARD HANSON, Bankrupt

Order of Notice Thereon

District of Minnesota, ss.
On this 2nd day of May A. D. 1923, on reading the foregoing petition, it is

Ordered by the Court, that a hearing be had upon the same on the 23rd day of June A. D. 1923 before said court, at Duluth in said district, at ten o'clock in the forenoon; and that notice thereof be published in the Brainerd Dispatch a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the same time and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

And It Is Further Ordered by the Court, that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness the Honorable Page Morris Judge of said court, and the seal thereof, at Duluth in said district, on the 2nd day of May A. D. 1923.

SCHOOLS FOR CITIZENSHIP

AN applicant for citizenship in the United States enters the court room with confidence when he has taken the prescribed course in night school and is entitled to receive admission without examination on presentation of his diploma. Others, who have not had the advantage of night school facilities, or who, when those privileges were available, have neglected them, enter the court room nervously and dread those moments when, before the assembled court, they will be required to answer questions asked by the naturalization examiner. Many things that would be remembered by the applicant in his own home are forgotten in the presence of the examiner, the judge, and the people gathered in the court room.

A thorough study of the government of the United States, under the direction of able teachers, will afford an understanding of the government and its institutions that are to be upheld by those who take upon themselves the heavy obligations of citizenship. When changes in the constitution and the laws of the nation are proposed, only those who know something of the history of the constitution and government of the nation are qualified to act intelligently upon the changes proposed. It is said that the most important demand made upon a citizen is that of thinking seriously about the welfare of his government, and attempting, through deep thought, to understand just what will best serve the country. But unless the citizen knows something of the history of the constitution and institutions, he is not in possession of the facts from which thought must start out to arrive at a decision favoring perpetuation or change.

Brainerd has not provided such night school facilities for the use of those who would avail themselves of them, that they might be intelligently prepared to assume the obligations of citizenship. Such a school ought to be opened in Brainerd during next fall. This will be seen by those who have taken the trouble to consider the matter at all thoroughly. America is not well served by citizens who are without an intelligent appreciation of the history of the United States. Such citizens have the privilege of voting, and their votes count for just as much as the votes of those who have had a university education.

Only the intelligent can vote intelligently, and those alone, who have a reasonable knowledge of how things have come to be, are qualified to vote upon matters of change; and yet there are many who have not studied the history of how things came to be, and of their contribution to the nation's life, who clamor for change. A respect for the past grows out of a study of the past. The untrained minds of children often lead them to think that they could make changes which would be a vast improvement over things that are; but, as they come to understand how these things have served, they gradually begin to respect that which has proved its value in the past and the present.

One who drew the conclusion that education leads to stagnation would draw a false conclusion. There are highly educated men who are the apostles of change, but education does provide the materials that must be considered in forming opinions that are worth while. In a democracy the people express themselves by their votes, and while the government of the United States is that of a republic with representative government, the representatives of the people are largely influenced by the sentiment of the voters. In such a government an intelligent electorate is an essential, and newly made citizens should be given the opportunity of study in night schools, so that they may be prepared to think about present needs in the light of past history. Brainerd ought to assist in making thoughtful citizens by giving those of foreign birth an opportunity of studying the principles of government in a night school during winter months.

BRAINERD'S IMPROVED HOSPITALIZATION

IN the treatment of sickness a marked change has taken place during the past few years. No longer is a patient treated in the home when the facilities of the hospital promise better results. With the discovery of the X-ray and other scientific instruments, that may be used in discovering and fighting disease, it has become imperative that these should be brought together in hospitals. No longer can the doctor pack his paraphernalia in his grip and depart for the home of the patient, carrying with him those many appliances that have been discovered to be used for diagnosis and remedy.

Because this is so, hospitalization has become necessary, and with the growth of population extended hospital facilities are an imperative need. Such extensions in hospitals have been made in Brainerd and the community is provided with adequate facilities of this kind. The splendid improvements that have been added to St. Joseph's hospital are a credit to the order, that so efficiently and charitably manages the hospital, and to the city of Brainerd.

One of the most conspicuous growths of modern civilization is the modern hospital. Time was when medical attention of a scientific character was unknown; but, as men have come to live together in orderly society, where has been built up that sympathy for the sick and medical aid for the patient that is one of the redeeming traits of a civilization that has not yet outgrown all of its faults.

NATIONAL TRANSPORTATION INSTITUTE

THE organization of the National Transportation Institute has been completed. This institute grew out of the recommendations made by the agricultural conference called by President Harding in the early part of last year. The conference was called to study the needs of agriculture, and it concluded that transportation must be improved if agriculture is to be satisfactorily served. Hence the institute which will make a world study of transportation facilities and methods. Transportation, in all of its branches, both by land and water, will be surveyed and experts will be sent abroad to study the transportation systems of foreign nations.

It is to be expected that the findings of this institute will not be colored by the tendencies of the personnel, and that the weaknesses of transportation systems under the strain which has fallen

upon them since the war, and largely as a result of depletion during the war, will not be used as an argument for government control—which would be political control—until the transportation systems have been given an opportunity to recover their strength and build up their equipment.

When considering the service of the American railroads it must not be forgotten that these have not passed out of government control. Even though they were restored to their individual managements, the railroads of this country have not been privileged to function under their own managements. The railroads have had their rates made for them by a rate-making body, the wages they must pay fixed by a wage-making body, the profits they may divide for them, by a profits-making body, and many other things fixed for them by other things-fixing bodies. If a nation cannot live when it is half slave and half free neither can a railroad. There are probably but two alternatives, either the roads must be given their freedom or they must lose their freedom entirely and become government controlled. It does not seem quite fair to rob a system of its freedom of action and then condemn it because it does not function freely. That is precisely what so many are doing today when they criticize the railroads and blame them for their failure. The blame may rest in legislation that has made the railroads half slave and half free. It is not quite fair to blame, when the right of self-decision has been removed.

The institute will serve a useful purpose if it shows that the railroads are working under serious handicaps owing to the half slave and half free condition that is imposed upon them by the multitudinous regulations of this day.

CROW WING county's sheriff has gone into the copper business, and in his room at the court house a wondrous display of copper tubs, copper boilers and copper coils may be seen. Prohibition must have had some effect upon the copper market. Many a good wash boiler has become a bad mash boiler.

EVEN poison gas has been found to be useful. That which was made to kill is being used to save lives. If the appeal of service had the thrill of the appeal of war what a good world this would be.

AFTER the snowy blizzard, the cloud burst; and after the cloud burst, the blazing sun; and the philosopher takes them as they come.

THE Johnsons are often hard fighters, and Walter of Washington is at it again, shutting out the New York Americans.

ADDITIONAL SPORTS

BRAINERD PLAYS LONG PRAIRIE

(By W. G.)

The third baseball game of the high school season will be played at the Koering field on Saturday afternoon at 3 o'clock, between Long Prairie and Brainerd.

The locals trimmed the aggregation from the south last week with a 5 to 2 tally. We expect a lot from them on our own diamond.

Brainerd has found herself since the last home game; the men are more familiar with their positions and we have a larger variety of hurlers from which to choose. Zakariasen, Molstad and Van Walk are in shape now, and one or all of them will be called into service tomorrow. The line up is as follows:

P. Zakariasen, Molstad, Van Walk; C. Fogelstrom; 3rd b. Rosenberg; S. S. Engbretson; 2nd b. Orth; 1st b. Peterson; 1. f. Lowe; r. f. Weber; c. f. Johnson.

John Freberg Wins

St. Cloud, May 4.—John Freberg of Chicago, Swedish heavyweight wrestling champion, won two out of three falls against Fred Grebmeier of Minneapolis here. Freberg got the first and third falls in 45 and 2 minutes, respectively. Grebmeier took the middle fall in 21 minutes.

Baseball Game Called Off

Minneapolis, May 4.—The Minnesota-Hamline baseball game called off on account of wet grounds, has been indefinitely postponed until later in the season. Fred W. Luenning, Minnesota's athletic director, announced today.

Practice in Cage

The Gopher squad put in an afternoon in the batting cages in preparation for their second conference clash with the University of Iowa nine Saturday.

7 PATIENTS ESCAPE FROM STATE HOSPITAL

(By United Press) Fergus Falls, Minn., May 4.—Authorities scoured Ottertail county today in search of three patients who escaped from the state hospital here yesterday.

Two of the patients were found early today wandering aimlessly on the shores of Crystal Lake near Clitherall. Two others were found later yesterday on a highway eight miles west of here.

John Kensky, convicted of murder on the iron range ten years ago who went insane at the state penitentiary five years ago, was among the seven who escaped. He is considered the only dangerous one of the seven.

The patients escaped by the use of a skeleton key made by one of the party. They disappeared Wednesday night.

"Colds" and Their Causes.

It is estimated that there are at least 100,000,000 colds in a year in this country, which is said to make it the most common infectious disease among our people. In this connection it also states that colds do not come from drafts of chills, as many believe, but that the draft and chill merely help things along by making it easier for the transmitted germ to get in its work.

Keep It Running Free.

Dawn brings the millman, but the milk of human kindness should be kept on tap during the entire day.—Tampa Tribune

Bath for the Plants.

Your household plants will flourish and bloom if you give them a bath once a month in water to which ammonia has been added—say a tea spoon to a quart of liquid.

Glad Sister Escaped Operation

"Physicians had given my sister up to die; they wanted to operate for gall stones, but she was too weak and could only talk in whispers. I got her a bottle of Mayr's Wonderful Remedy and in 3 weeks she was able to get about and walked a mile to church." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.

There is Strength in Every Tablet of This Newer Form of Iron

One dose often helps convince you to enrich your blood and revitalize your worn-out exhausted nerves—it is a newer form of iron, like the iron in your blood and like the iron in spinach. It is so prepared that it will not injure the teeth nor disturb the stomach. It is ready for almost immediate absorption and assimilation by the blood while some physicians claim metallic iron which people usually take is not absorbed at all. If you are not strong or well you owe it to yourself to make the following test: See how long you can walk or how far you can walk without becoming tired. Next take two five-grain tablets of this newer form of iron—three times per day, after meals for two weeks. Then test your strength again and see how much you have gained.

NOTE—The manufacturers of this newer form of iron known as Nuxated Iron are thoroughly reliable; since its introduction it has reached the stupendous sale of over 4,000,000 packages annually, and it has been used and highly recommended by former U.S. Senators, Members of Congress, Judges of U.S. Courts and many physicians. We are able to guarantee that if you do not obtain all and even greater results than you expect from Nuxated Iron the manufacturers will promptly refund your money.

"A Tempest In A Tub"

ALUMINUM TUB

This tub is made of fine cast aluminum. Will not rot, rust, corrode, warp, swell or crack. Absolutely sanitary. Light, yet durable. Easily filled. Easily drained.

The most sensational washer ever perfected. Water action amazes women everywhere. A new principle.

To the women who wash your own clothes—this offer is to you. Come in and see this new type washer. It is new. It is different. It washes clothes better, faster, more carefully. The wonderful water action produced by the Gyrotator does it. It's "a tempest in a tub." Never before has there been used such an astonishing principle. Words cannot describe this action. Pictures can not show it. You must see it. Women everywhere are amazed.

MAYTAG
Gyrotator
WASHER

ALUMINUM
Will Not Rot, Corrode, Leak or Swell

Come in and see a free demonstration. Watch the amazing action of the water. Hear the gurgling, splashing, watery sound. Nothing like it was ever seen before. Thousands witnessing it every day throughout the country. Come in early!

AMUSEMENTS

Chaplin's "Pilgrim" is Greatest Scream Classic

When Charles Chaplin ambles across the screen in the garb of a minister, the crowd settles back in the seats and grins happily in the darkness.

There are some persons who profess to be superior to Chaplin. They say they can't understand why a little man with ill-fitting clothes and a genius for getting in trouble and being chased should seem to be so excruciatingly funny. It seems a little ridiculous to them. It jars their sense of dignity, which is a queer sense in human beings.

But dignity does not thrive in darkness, for there is no one to see, no one to pose before.

Chaplin is a creative artist. He has created something that is definite, a brand of fun that has become a world institution. And this brand of fun will reach its pinnacle at the Park on Saturday and Sunday.

where the First National picture, "The Pilgrim", will happily converse all who see it.

It is a big feature production, bigger even in a comedy sense than "The Kid," which was in six reels as compared with "The Pilgrim's" four. But in those four reels subtle humor is combined with pantomimic action in a way that Charlie has not heretofore duplicated.

George Ade, Famous Humorist, Screen Author Now

George Ade, American humorist, is a screen author now. He not only wrote the original story of "Our Leading Citizen," the Paramount starring vehicle of Thomas Meighan, which is to be shown at the Lyceum theatre tonight and Saturday, but he went to California to collaborate in the writing of the scenario with Waldemar Young.

During his California visit, Mr. Ade conferred with the casting director in the selection of the cast which includes Lois Wilson, Theodore Roberts, William P. Carleton,

Thomas Meighan in George Ade's "Our Leading Citizen," A Paramount Picture

Guy Oliver, and others.

As the result of this intimate association of the author and the various production elements, "Our Leading Citizen" is a faithful reproduction of the story exactly as Mr. Ade wrote and intended it to be played. It boasts of a number of original subtitles by the author that are of the calibre that gained him his present place in the front rank of American men of letters. Lois Wilson is leading woman.

In addition to the above feature the 2nd round of the New "Leather Pushers" is also to be shown at the Lyceum.

New Cecil B. De Mille Picture Coming

"Fool's Paradise," Cecil B. De Mille's great Paramount picture, is said to be one of the most beautiful which that producer has thus far

presented to the screen public. It will be the feature at the Lyceum theatre this Sunday, Monday and Tuesday. Dorothy Dalton, Mildred Harris, Conrad Nagel, Theodore Kosloff, John Davidson and Julia Faye are in the principal roles. The picture is based on Leonard Merrick's story, "The Laurels and the Lady."

KELLOGG'S BRAN
gives permanent relief

because it is ALL BRAN!

With the most dangerous diseases close on the trail of sufferers from constipation, there's no time to waste on foods with a low bran content! The one answer to constipation is BRAN that is ALL BRAN! That's why you should eat Kellogg's—and eat it regularly; at least two tablespoonfuls daily; as much with each meal in chronic cases! KELLOGG'S BRAN IS SCIENTIFICALLY PREPARED TO RELIEVE SUFFERING HUMANITY AS NO OTHER FOOD CAN!

Don't delay a minute! Get started on Kellogg's Bran to-day and your health will steadily improve and bowel conditions return to normal, no matter how long you have suffered with constipation, mild or chronic.

Remember that Kellogg's Bran is not an artificial laxative, but nature's own bulk food that acts as sweeper, cleanser and purifier. Its work for health is wonderful! Besides, bran contains the most valuable mineral salts and other life-sustaining ele-

ments—it is a blood maker and bone and tissue-builder!

Kellogg's Bran, being cooked and krumbled, is delicious eaten as a cereal, or sprinkled on hot or cold cereals. Another happy way to serve Kellogg's Bran is to cook it with your favorite hot cereal. In preparation, add two tablespoonfuls of bran for each person, cooking the cereal as usual.

You can make the most delightful muffins, raisin bread, pancakes, macaroons, etc., with Kellogg's Bran—and it's fine in gravies, soups and purees.

The big thing is to get started on Kellogg's Bran quickly—for the sake of the health of your entire family—AND SERVE IT REGULARLY! First-class hotels and clubs serve Kellogg's Bran in individual packages. Ask for it at your restaurant!

All grocers sell Kellogg's Bran.

SOLDIERS AS NEW SETTLERS

F. E. Lurton, Chief District Information Officer, of U. S. Veterans Bureau Gives Interview

PROGRESS OF THE BUREAU

Over 600 Men in this District Now Studying Agriculture, Nucleus Formed Near Brainerd

When interviewed today, F. E. Lurton, Chief Information Officer of the U. S. Veterans' Bureau, District No. 10, (C. D. Hibbard, District Manager, Minneapolis,) gave the Dispatch some interesting information regarding the plans and progress of the Bureau in settling disabled soldiers upon land of their own selection, especially in northern Minnesota. District No. 10 is making this an outstanding feature of its work, and is meeting with good success.

There are over 600 men in this district who are studying agriculture and expect to engage in farming for themselves. Notable progress has already been made. At Orchard Gardens, a few miles south of Minneapolis 28 men have bought small tracts for poultry and berry farms. They have bungalows and chicken houses built and extensive berry plantings completed.

At Veteransville and Silver Star, two colonies near McGrath, in the "cut over" country upwards of 45 men have bought 40 and 80 acre farms, made clearings averaging five acres, bought teams, poultry and livestock and many be considered going concerns. There is a similar settlement, consisting of about 20 men, at Onamia.

At Moose Lake is the largest colony, consisting of over 50 men. Part of these are on one-man farms of 40 or 80 acres, while others are on small poultry farms of approximately 15 acres each, adjoining the townsite. Most of these men went there last fall and have their developments well under way.

The men upon these several colonies have besides their other livestock about 40,000 baby chicks, preparatory to doing an extensive poultry business.

The aspect of the work that interests our readers at the moment is the fact that scores of these young men are now visiting Brainerd and other points, under the guidance of Bureau officials and representatives of the Civic and Commerce Association inspecting and buying land. Several parties have already been here, and R. R. Rosell, the Bureau's representative, is busy showing them the available lands. We are reliably informed that several parties have already selected land in the Brainerd area, where everybody will welcome and aid them in every way possible.

Mr. Lurton speaks highly of the disinterested cooperation the Bureau has always met with in Brainerd.

A novel feature of this back to the land movement is the vocational training given these men by the government while they are developing their farms. Wherever there is a group of these ex-service men the Veterans Bureau provides them an instructor in agriculture, under contract with the local Board of Education. Regular classes are held in the winter months but during the growing season the instructor teaches practical agriculture to each man on his own farm, giving a practical application of the things studied in the classroom. To take the instruction to the man rather than to take the man to a school is something new in education and full of practical possibilities. It is already giving fine results.

While in training these men receive \$100 to \$170 per month, according to the number of their dependents. This enables them to make payments and improvements on

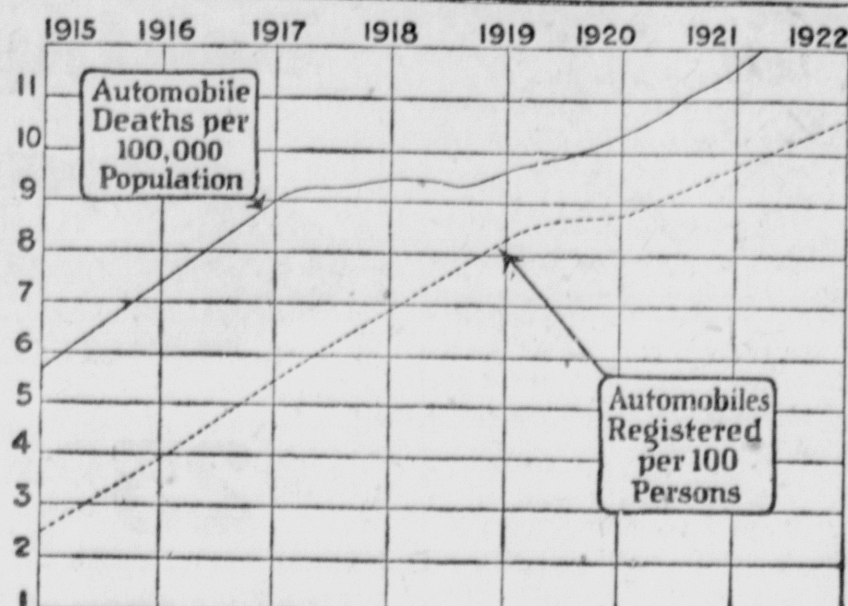

APPLY SULPHUR ON YOUR ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Menthosulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Menthosulphur from any good druggist and use it like cold cream.—Adv't.

Automobile Deaths Leap Annually But at Less Rate Than Cars Owned

Deaths in the United States caused by motor car accidents increase annually. So does the number of automobiles registered. The above graph shows, however, that the number of death does not increase so rapidly as the number of cars.

Between 1915 and 1920, for instance, the number killed advanced from 3,978 to 12,500, or by 214 per cent. This figure is awesome enough in itself. The number of cars, however, increased over the same period from 2,545,664 to 10,448,662, or by 310 per cent. The number of cars in 1922 was estimated to be 11,500,000.

their land until it becomes productive. All in all the plans of the Bureau look attractive to these trainees and the communities in which they settle.

BABY FALLS 15 FEET INTO BUSH; LEG BROKEN

Ashland, Wis., May 4—Baby Lucille Netton, wailing in an upstairs room while her mother was downstairs, crawled from her crib to a window and tumbled out. She alighted in a rosebush 15 feet below. A leg was broken.

RAINS MAKE ROADS SOFT AND RUTTY

St. Paul, May 4—Minnesota's unsurfaced highways were soft and rutty today according to reports to the state highway department. In many places they were impassable. Recent heavy rains have left them mushy.

The roads will probably not be in such poor condition again this season, it was stated.

Owe Much to Necessity. Necessity has been the mother of many things besides invention. To invention we owe most of our creature comforts and conveniences, most of the myriad devices and appliances which make modern civilization possible, most of the vast production of merchandise which is the backbone of business.—William T. Mullally.

Ashland, Wis., May 4—Baby Lucille Netton, wailing in an upstairs room while her mother was downstairs, crawled from her crib to a window and tumbled out. She alighted in a rosebush 15 feet below. A leg was broken.

RAINS MAKE ROADS SOFT AND RUTTY

St. Paul, May 4—Minnesota's unsurfaced highways were soft and rutty today according to reports to the state highway department. In many places they were impassable. Recent heavy rains have left them mushy.

The roads will probably not be in such poor condition again this season, it was stated.

Owe Much to Necessity. Necessity has been the mother of many things besides invention. To invention we owe most of our creature comforts and conveniences, most of the myriad devices and appliances which make modern civilization possible, most of the vast production of merchandise which is the backbone of business.—William T. Mullally.

TOURISTS NOW AT THE CAMP

6 Cars Arrive in City and Make Full Use of Site Now Being Remodeled

3 STATES ARE REPRESENTED
Kansas, Iowa and Minnesota Families Are Enthusiastic About Brainerd

Tourists are coming in rapidly, and are making full use of the camp site, which is still in the process of remodeling.

On Friday morning three states were represented at the camp, Kansas, Iowa and Minnesota.

The Kansas contingent includes E. E. James and S. E. Barbee with their families. They come from Topeka, Kansas, on the Santa Fe trail, and state that they found the roads good, generally speaking. The only trouble experienced was in the vicinity of Omaha. Both families are very enthusiastic about Brainerd and vicinity, and stated that they will locate in Crow Wing county if suitable farms can be found.

C. A. Stewart and family, with two automobiles, come from Vinton, Iowa. Each car has a trailer, the one equipped as a bedroom, the other carrying a complete radio set. The Stewart's are traveling in comfort, and keep in touch with world happenings by wireless.

One family from Minneapolis camped at the site, is also in the market for land near Brainerd. This family has toured most of Minnesota and nearby states, but has decided that Crow Wing county looks the best to them. No doubt many other visitors will be impressed in the same favorable manner after visiting this locality.

Work at the camp site is progressing rapidly. When completed, there will be between twelve and fifteen large tables, most of them with awnings, and each equipped with electric lights and a gas plate. Fire places on the grounds will augment the gas for cooking.

The caretaker's house is nearing completion, and the water mains are practically installed. A heater in the caretaker's building will supply hot water for the bath rooms and for tourist's use.

DISTRICT COURT PROCEEDINGS

In district court Friday the case of M. M. Roberts against Homer Andrews, and the Jenkins State Bank was being tried.

Roberts alleges that he pastured six head of cattle with Andrews, and that the Jenkins bank, in a foreclosure proceedings against Andrews, took these cattle with others.

T. O. Keefe and Charles Martin are attorneys for Roberts, and Frederick J. Miller and Eugene L. Forbes are counsel for the defense. Roberts is a farmer living near Staples, and Andrews resides near Pine River.

The jury, the first one drawn in this term of court, consists of Joseph Johnson, C. E. Carlson, D. P. Casher, Gust Olander, H. R. Congdon, P. S. Englund, Clarence Grant, Emil Eckholm, Maurice Buckler, P. C. Borden, L. H. Schwindeman and D. N. Kemp.

TOO BAD! TOO BAD!

Frank A. Day, editor of the Fairmont Daily Sentinel, now visiting round in California, wrote home:

"I just read a dispatch which said our legislature defeated the twenty million bond bill. If we are going to keep Minnesota people from moving west we must give them the kind of highways California supports."

"Too bad! Too bad! This mars the pleasure of my trip."

ARE GOOD INVESTMENTS

Every mile of good road built makes it easier for tourists to come to us; and all we have to do to get them here is to furnish the roads. Therefore we should support and encourage every road-building program. Every dollar spent for good roads will bring many dollars back to our great state.—Winnebago City Enterprise.

104TH BIRTHDAY OF ODD FELLOWS

Celebrated on Wednesday by Unity Lodge No. 194 With Appropriate Program

REV. FRED ERRINGTON SPOKE
Following Program a Delightful Luncheon Was Served by the Ladies

The one hundred and fourth anniversary of the founding of American Odd Fellowship was celebrated on Wednesday evening by Unity lodge, No. 194 with an appropriate program.

The exercises were opened by Oscar Risberg with a xylophone solo, accompanied by Miss Nitterauer, Miss Esther Fogelstrom and Miss Jennie Beck rendered a duet, accompanied by Miss Marion Opsahl.

Rev. Fred Errington gave the address of the evening, a discourse on the tenets of the order and the occasion of the gathering.

D. H. Fullerton sang, accompanied by Miss Opsahl, and William Rodenkirchen favored with selections on the cello. O. J. Bouma presided as chairman of the evening.

Following the program a delightful luncheon was served by the ladies.

'BRAINERD'S HALF CENTURY'

Method of Printing is Interesting—
Greatest of Care is Used

PRINT 16 PAGES AT ONE TIME

Book is Copyrighted—To be Placed in Many of the Libraries in the United States

The greatest amount of care is being used by the printers of "Brainerd's Half Century." The history, which went to press over seven weeks ago, promises to be the last word in high grade printing and binding. Warren's silkote semidull 119 pound book paper is used. The cover is of heavy damascan, double thickness. Sewed binding insures strength and durability.

The method of printing is interesting. Sixteen pages are on the press at each "run." The first "run" includes pages 1, 4, 5, 8, 9, 12, 13, 16, 17, 20, 21, 24, 25, 28, 29, and 32. The second "run" takes pages 33, 36, 37, et cetera. The third prints pages 2, 3, 6, 7, et cetera; and so on. The book is of 144 pages, size 7 1/2 by 10 3/4 inches.

The type for the entire book has been set up and is now being placed into "sections" of 16 pages. One section is printed each day, beginning yesterday. The binding will require one week.

"Brainerd's Half Century" is copyrighted. Copies will be placed in the Congressional Library in Washington D. C., the Minnesota Historical

FIRES IN MARCH, 15 COST \$325

Monthly Report of Water & Light Board Filed, Biggest Fire at Hitch Residence

MORE MINIMUM CONSUMERS
Laying of Water Mains Begins Next Monday on First Avenue Northeast

The monthly report of the water & light board for March shows 15 fires, costing the city \$325 for the services of the firemen. The biggest fire was that at the Hitch residence in West Brainerd, which required running the fire pump 2 1/2 hours.

There was an increase in the number of minimum consumers of water, from 53% to 71%, and of electricity from 6% to 12%.

Permanent improvements during March were very few, amounting to only \$132.24.

Total value, after deducting depreciation, on April 1, for all public utilities is \$487,091.33.

Warrants outstanding, April 1, \$8629.05.

Balance on hand when all warrants issued have been paid \$8,516.24.

City's unreserved interest in its public utilities increased to \$173,679.16.

Total assets \$524,448.83. Accrued interest on April 1, \$4,531.24.

The secretary reports that laying of water mains begins next Monday, on First Ave., N. E., being a 4-inch line not completed last fall. A crew is engaged in re-arranging primary electric lines in the Third Ward. Additional lightning arresters and transformers will be inserted at various places in the city. The Cuyuna Range Power Company is also bringing up re-wiring the present contract with the City to furnish electricity. About twenty-five signers to two petitions have asked for water service on the south side and have agreed to connect their houses as soon as the lines are laid.

cal Society library in St. Paul, the University of Minnesota history library, and in many other public and school libraries.

Several hundred extra copies are being printed, to take care of future demand. Ingolf Dillan is the author and publisher. The General Printing Co. of Minneapolis is doing the printing.

TODAY

Years ago we used oxen, had very few horses, no banks or institutions for saving. Today in order to compete we must have facilities for doing business. The first bank was organized as a necessity and as the country developed, necessity compelled the organization of more and more banks. Exchange, savings, checking accounts and lock boxes are saving the people of this country a mint of money. How can a person rest with money under his pillow, in a stocking, in the mattress or any other place than a regular organized place to keep money and other valuables? A few years ago a person whom we know lost his house and barn with \$5,000 in currency by fire. He lost more than the buildings and his currency, as he had never established a credit at a banking institution. Banks were organized purely from an economic standpoint. It is an economic policy for every man, woman or child to use these institutions. We pay 5% on savings, and endeavor to give 100% service.

SPORTS

RUTH GIVING BEST TO PUBLIC

By HENRY L. FARRELL
United Press Sports Editor

New York, May 4.—When Babe Ruth started the 1923 season with one of his longest homers in the opening game, the sharp tongues of some of those who look upon everything as a "job" had something like this to say:

"He laid down in the exhibition games to get 'em to pitch to him." While it is impossible to fathom the mental processes of the Babe at the bat, such statements must be considered far-fetched if not actually foolish.

The biggest factor in the come-back of the Babe was a new-born sense of duty toward what he now regards as HIS public.

The belief that the Babe finally has come to the realization of what the public expects of him and how he has failed to keep faith with it, is not propaganda from the club or from the Babe himself. It is the conviction of veteran baseball writers, with trained powers of observation who have watched Ruth all year on and off the field.

The Babe actually considers he has a greater duty toward the fans in the tank towns because their opportunities to see him and big league baseball teams is confined to one day a year, while the fans in the bigger towns can suit their own convenience.

If the Babe failed to deliver in the exhibition games it was not the fault of his heart, but was the result of a slow moving process in overcoming the effects of illness and of getting himself back in his old form.

It is not just to insinuate that Ruth "pulled his punches" in the exhibition games, because he never could have been accused of not trying, even if he has been guilty of almost everything else in the past.

As far as the intimation that he was trying to coax the pitchers to give him a chance, it is absurd to even think of such a thing. The Babe can't pull his punches if he tried. He wouldn't have to do it to get the pitchers to pitch to him. With his showing in the pennant race last year and his miserable work in the world's series against the New York Giants, he has established a slump that was sufficient to encourage any pitcher to take a chance with him, regardless of what he did in the training season. Work in early spring exhibition games is never reliable ground for accurate judgment of a player's real form.

News From Billie Benda

In a letter to A. W. Fall, Billie Benda announced his trying out for the Oklahoma State League at El Reno. He started training on Friday, April 13th, generally reputed an inauspicious day. His knee has improved and is in good shape again. There is a nice Elks home at El Reno and Mr. Benda is a frequent visitor there.

In a letter received by the Dispatch from H. C. Kylo at Stevens Point, Wis., the latter writes about Benda and encloses a clipping from the El Reno paper. It mentions that the regular team played John Lesser's Capitol Hill club of Oklahoma and slaughtered them 15 to 1.

"Benda," says the El Reno Daily Democrat, "the new second sacker showed well, both in fielding and with the willow, driving two of Warner's hot ones out of the park for four bases."

Kylo writes further that Benda's knee injury was received when he fractured it last season at Mitchell, S. D. "How is Art Drogseth? Still got the baseball bug? As I am not very far from Chicago, I will no doubt run into Chicago several times this summer and see our own Joe Bullet Bush work."

Jock Malone vs. Billy Wells

St. Paul, May 4.—Jock Malone will probably fight his last bout at 150 pounds tonight in the St. Paul auditorium against Billy Wells. The St. Paul middleweight is again having trouble making the poundage and reports from some circles were that he would not be able to make it.

Signed for McTigue

Tommy Walsh, his manager, arrived from Chicago yesterday and immediately had a conference with his protegee over two prospective matches. Walsh has signed for two championship bouts in Chicago, the first with Mike McTigue at the Cubs ball park June 9 and the second with Mickey Walker, welterweight champion.

Malone will get both matches but only on the condition that he wins from Wells tonight. Walsh is worried about the weight so is Malone. Both want to keep the agreement and Malone will tip the beam at 151 or under tomorrow if physically possible.

Weather Suits Malone

The weather has been ideal for (Additional Sports on page 4)

PERFECT GAME PITCHED IN THREE I LEAGUE

Rockford, Ill., May 4.—Rennie Young of the Bloomington club of the Three I League pitched a perfect game against Rockford. Only 47 men faced him and none reached first base.

PADDOCK BREAKS RECORD IN PARIS

Paris, May 4.—Charlie Paddock, world's champion, established a new world record for 75 meters at the University of Paris games this afternoon when he covered the distance in 1-5 seconds.

For Real Service Buy Red Crown The High-Grade Gasoline

Gasoline Service is expressed in terms of mileage. When you buy 10 gallons of gasoline, in reality you are buying 150 miles of service, if you get 15 miles to the gallon.

Gasoline becomes a propelling force only when you cause it to vaporize and mix it with air.

The service which you receive is in exact ratio to the manner in which the gasoline vaporizes.

Red Crown Vaporizes to the Last Drop

that's why there is no waste. Red Crown has a Perfect Chain of Boiling Point Fractions, adjusted so as to vaporize at just the correct temperature to produce instant starting Winter or Summer—a quick pickup—smooth acceleration—tremendous sustained pulling power—racing speed if you want it and a maximum of mileage.

All of which is summed up in two words "Real Service."
